

84 Companies Make “Best Places to Work in Maine” List

AUGUSTA, Maine (September 10, 2020)—The Maine State Council of the Society for Human Resource Management (MESHRM) has announced the winners in the 15th annual "Best Places to Work in Maine" program. This year, 84 companies met the criteria of a “Best Place to Work in Maine.” The program began in 2006.

The “Best Places to Work in Maine” list recognizes companies that have established and consistently fostered outstanding workplace environments. The organization that manages the program, Best Companies Group, gathered information from all registered organizations including employee benefits, workplace policies and employee responses through a comprehensive satisfaction survey.

Participating companies receive an Employee Feedback Report in an effort to help them identify their strengths and find opportunities to continue building a better workplace. The report summarizes employee engagement and satisfaction data and includes employees’ written comments. The report is used by many organizations to make significant improvements in their workplace culture.

The program is part of a long-term initiative to encourage growth and excellence in companies throughout the state.

The 84 winners, categorized by number of U.S. employees, and their rankings, will be featured in a statewide publication produced by *Mainebiz*.
